

Project Design Phase-II  
Solution Requirements (Functional & Non-functional)

|               |                                                 |
|---------------|-------------------------------------------------|
| Date          | June 2025                                       |
| Team ID       | LTVIP2025TMID55104                              |
| Project Name  | ResolveNow: Your Platform for Online Complaints |
| Maximum Marks | 4 Marks                                         |

Functional Requirements:

Following are the functional requirements of the proposed solution.

| FR No. | Functional Requirement (Epic) | Sub Requirement (Story / Sub-Task)                                                                 |
|--------|-------------------------------|----------------------------------------------------------------------------------------------------|
| FR-1   | User Registration             | Registration through Form<br>Registration through Gmail<br>Registration through LinkedIn           |
| FR-2   | User Confirmation             | Confirmation via Email<br>Confirmation via OTP                                                     |
| FR-3   | Complaint Management          | Submit new complaint<br>Edit or delete complaint<br>Upload image/evidence<br>View complaint status |
| FR-4   | Real-time Chat                | User-agent messaging<br>Admin-agent-user message visibility<br>Notifications when agent replies    |
|        |                               |                                                                                                    |
|        |                               |                                                                                                    |

Non-functional Requirements:

Following are the non-functional requirements of the proposed solution.

| NFR No. | Non-functional Requirement | Description                                                         |
|---------|----------------------------|---------------------------------------------------------------------|
| NFR-1   | Usability                  | User-friendly UI with responsive design using Bootstrap/Material UI |
| NFR-2   | Security                   | Authentication using hashed passwords, MongoDB security rules       |
| NFR-3   | Reliability                | Data stored securely in MongoDB Atlas with high availability        |

|       |              |                                                                          |
|-------|--------------|--------------------------------------------------------------------------|
| NFR-4 | Performance  | Optimized REST APIs for fast response, React lazy loading                |
| NFR-5 | Availability | 24/7 accessible system with robust backend connectivity                  |
| NFR-6 | Scalability  | Scalable backend using Express.js and MongoDB Atlas for future expansion |
